How do we get out of lockdown – update

What does worry me, is that our government will decide that an acceptable rate of infection for the UK, is around 4,000 new cases per day and lift the restrictions too soon.

Smashing the Menopause Support Group has officially landed

Smashing the Menopause Support Group

Despite the limitations brought about by Covid 19, the Smashing the Menopause Support Group has officially landed!

Six of us, all at different stages of the menopause and all with very different experiences of it, met for the first time yesterday evening via Zoom. Although nicer to have been able to meet in person, the hour and a half spent together over the internet was great and we've decided to meet monthly from now on.

If there's anyone else out there who'd value a confidential and supportive space in which to off-load, learn and laugh about the menopause, you're more than welcome to join us. Just contact Chris at cw@echelonassociates.co.uk and you'll be

included in next month’s Zoom invitation.

Stay well; stay safe.

DVLA service update

Paper applications

Help us to help key workers and do not send in paper applications to DVLA until further notice.

Press release from Stroud District Council

COVID-19: We’re writing to every resident in the district to make sure they’re OK

Church Mailing List

The Mailchimp Mailing list St George have been using for a while, so that it can be used for both (or either) St George and/or St Cyr.

The signup form now asks ‘Which Church?’. This will make it easier to follow guidelines on data protection, for us to send you updates more accurately and allows you to unsubscribe.

Please join our **email list** if you would like to be kept informed of events & services.
